FOR STATE PRINTER.

W. W. Booth, the proprietor of the Bonanza, has announced his candidacy for the republican nomination for state printer and is in the race to win. This is not the first time he has been before the voters of Nevada for a state office, having been on the ticket eight years ago when the silver wave was in evidence, and like the majority of his brethren—but that is another story.

Modesty forbids an enumeration of his virtues, but as he is known from one end of the state to the other, and has friends everywhere is candidacy is conceded. There are few men better known in Nevada than is Billy Booth.

ENTERPRISE UNDER DIFFICULTIES.

Those two convicts in the Missouri state penitentiary who managed to run a counterfeiting plant inside the institution for months without detection, and turn out a very passable imitation of Uncle Samuel's currency, deserve a pardon for their ingenuity. It is little short of positive genius. Most counterfeiter, it is understood, have more or less trouble carrying on their business even when possessed with their liberty. What a success in business, what a record of "captains of industry," these two convicts would have made on the outside! As it was, their transgression inside the prison walls would not have been discovered had it not been for a quarrel between themselves.

They had made and concealed in their cell a small furnace, fashioned out of plaster of paris and an old tin can, with a bellows made of pasteboard and rags; a melting ladle made of an old piece of zinc, and two molds for half dollars, one for quarter dollars and one for 5-cent coins. They procured the plaster of paris from some repair work which had been done on the walls of the workshop, and picked up the other materials about the prison. Charcoal was used for fuel.

And now the men are to be punished by being pardoned by the governor for the offense for which they are doing time in order that they may be arrested and prosecuted by the federal authorities for counterfeiting—with a much larger prison term staring them in the face.

The Missouri penitentiary is gaining quite a reputation for maintaining side industries not contemplated by the management. It was in this same institution that one of the convicts, several years ago, was found to be operating a still for his own private use. He indulged in too much of his own product one day, with the result that detection followed. He was also a genius in his way.

While the Fourth of July committee is planning the attractions for the Fourth of July celebration here they should not lose sight of the fact that this is a mining camp and that most of the visitors to the camp on that date will be people who, directly, or indirectly derive their support from the mining industry. Therefore the star number on the day's program—the piece de resistance, as it were—should be the drilling contest, both with the single and double jack, with generous prizes to the winners. Such a contest will arouse more interest and draw more people in attendance, than any other event that might be arranged.

The one thing certain about the coming will between Jeffries and Johnson is that it is going to be on the "dead level." That is the meaning of Tex Rickard's acceptance of the referee-ship. In accepting it he had no other idea than to prevent any advance frame-ups that might be attempted to make the fight crooked. At the ringside the real referee will be appointed, with Tex Rickard's approval.

Mr. Guggenheim says Alaska is no man's country. He should have added: "But Guggenheim's."

BABY MILLER ALL THE RAGE AT THE BUTLER

JUVENILE PERFORMER RECEIVES APPLAUSE THAT IS DESERVED.

The usual good crowds again witnessed the three performances at the Butler theater last evening. Baby Miller appeared in a new song and dance for her first act and a recitation in the second. She received hearty applause both times and certainly deserved it. The pictures for today are "The Wings of Love," a Vitagraph drama depicting the love of a miller's daughter for a burgomaster's son. Of course, the parents on both sides object and adopt strenuous methods to keep their children apart, but all to no avail; they outwit the old

well. "The Girl Conscript," deals with the life of a young girl who distinguishes herself by stealing the plan of campaign from the enemy after joining the army in her brother's place. "Modern Railway Construction" is an educational film of the highest order. "The Sacred Turquoise of the Zuni" is the story of a Zuni chief who finds a very brilliant, large turquoise and in taking it to the sacred Zuni temple is seen by an Apache chief who afterwards succeeds in stealing the precious stone. There are eight different scenes to this picture and it is said to be the best that the Kalem Manufacturing company have yet produced. The prices are as usual, 10 cents, with the usual matinee at 2 p. m.

MINT IS BUSY.

There has been somewhat of a rush for the past week or so, as a great deal of bullion is being received from all parts of the state. This shows the increased activity in a mining way that is going on in all the mining camps of the

JIM SWEENEY INSISTS THAT HE IS IN THE RACE

TAKES THE FIELD SAYING HE IS OUT FOR A FIGHT TO THE FINISH.

Yesterday morning the Bonanza printed the announcement that James G. Sweeney, justice of the supreme court, was out as a candidate for the democratic nomination for United States senator. His desire to wear the toga that now reposes on the shoulders of George S. Nixon, is made plain in the following announcement, which was printed yesterday in the Reno papers:

"To the democrats of Nevada: I want the democratic nomination for United States senatorship this year and herewith announce my candidacy for this nomination, subject to the approval of the democracy of Nevada; and I further announce that I am in the field to fight to a finish.

"As a democrat I invite and will welcome any democrat who has any senatorial ambitions or any democrat who is willing to espouse the cause of democracy this fall for this position to come forth and announce his willingness to serve his party and submit his candidacy, thereby giving to the democrats of Nevada an opportunity to select from among them the strongest man willing to make the fight. We have a fight on our hands and can and will win, but we need our strongest material.

"I can, and will, if nominated, present to the people of Nevada sufficient material reasons as to why the senatorial position now occupied by Senator George B. Nixon should be filled by a democrat and insure democratic Nevada that it will, as it should, have two democratic senators on the 4th day of next March. Having full faith in the wisdom, patriotism and character of a majority of the democrats of Nevada, I further announce that I will actively support any nominee whom the democrats of Nevada may select for the position. (Signed).

"JAMES G. SWEENEY."

EXPECT DECISION IN THE KNOCK CASE

A decision is expected within the next few days in the case of Fred A. Knock versus the Tonopah and Goldfield railroad company, which has been before the supreme court on appeal. It will be remembered that Knock was awarded damages in the district court here for the loss of an arm, which resulted while in the employ of the railroad company. The case went up on appeal by action of Campbell, Metson and Brown, acting for the defendants. Knock was represented
